## WORK EXPERIENCE

### Java developer

Torrent Pharmaceutical Ltd.

Oct 2021 - April 2023

*Dahej, IN*

- Manual processes for managing USFDA inspection reports led to delays and inconsistencies, impacting compliance and operational efficiency.
- Designed and developed RESTful APIs using Spring boot and React.js to automate the collection, integration, and presentation of inspection data. Collaborated with cross-functional teams to integrate these APIs seamlessly with existing systems. Conducted thorough testing to ensure system reliability under high workloads.
- Streamlined the reporting process, reducing generation time, improving data accuracy, and ensuring compliance with USFDA standards. This innovation significantly improved audit readiness and streamlined communication between departments.

### Full Stack Developer Intern

Helpworx Technology Pvt. Ltd.

Jun 2021 - Oct 2021

*Kolkata, IN*

- Tackled the need for visually intuitive data processing and analysis in client projects under tight timelines.
- Developed and implemented full-stack web applications using Node.js and React.js, enabling efficient data processing, analysis, and visual rendering. Coordinated coding, configuration, and detailed documentation throughout the project lifecycle.
- Delivered high-quality applications that improved client decision-making through clear visualized data while successfully managing time-sensitive content updates and database upgrades.

## TECHNICAL SKILLS

**Languages:** Java (J2EE), HTML, CSS, JavaScript, PHP, Python, SQL

**Frameworks:** Node.js, React.js, Express.js, Angular, Spring MVC

**Database Management Systems:** MySQL, Oracle, MongoDB (NoSQL), PostgreSQL, SQL Server

## EDUCATION

**Postgraduate in Information Technology Solutions**, Humber Polytechnic

Dean's Honor List Recipient, GPA 90.1

April 2023 - Dec 2024

**Bachelor of Engineering in Information Technology**, Gujarat Technological University

CGPA 8.88

Aug 2017 - May 2021

## PROJECTS

### TheGAAP.net

Collaborated with technical team to enhance TheGAAP.net, a platform serving accounting professionals, focused on delivering tailored resources to CPAs, accountants, and business leaders.

*MEAN Stack*

### Threads App Clone

Developed a full-stack clone of Threads, transforming a Figma design into a feature-rich platform with authentication, community management, nested commenting, real-time search, notifications, and more. Utilized Next.js with SSR for performance and SEO, and implemented robust data validation with Zod.

*Next.js, MongoDB, TailwindCSS, Clerk, TypeScript*

### Smart Government Office

Implemented website using PHP with MySQL database at server side and client-side using Ajax jQuery & other jQuery plugin.

*PHP, MySQL, HTML, CSS, JavaScript*

## ACHIEVEMENT

**Idea to Entrepreneur(I2E)** by Student Start-up & Innovation Policy Cell (SSIP)

Winner under category of best start-up Idea to Entrepreneur

## VOLUNTEER EXPERIENCE
